

The Light Of Dawn

The day started low,
His brightness increases can you see?
Every second the more it glow,

Long day it will be,
Imagine an endless day,
Getting more and more warmer,
Huge waves of sun ray,
Tangle around and start to plotter,

One big amazing light
Fantastic that can blind,

Distracted were your mind,
Another day that is dying,
Who knows if it will come again?
Next time let's see it together my friend.
